11 December 2019

Ref.: 231035

From: Petroleum & Energy Infrastructures Ltd. / Oil Products Pipeline Ltd. ("PEI")

To: All Tender Participants

Dear Sir / Madam,

**Re: Public Tender No. 050-19 (the "Tender") – Update #2**

**1. Amendments to the Tender**

Following comments received from certain bidders, and after PEI's consideration of relevant concerns, the Tender Documents **are hereby amended**, as follows:

A. The **revised and amended Annex H** ("Bill of Quantities") is attached as Exhibit A hereto.

Bidders are advised that when submitting their bids, **the revised and amended Annex H attached to this Update is the Bill of Quantities which must be filled in and signed**, as per Section 4.2 (and Section 2.9, if applicable) of the Invitation to Bid. Any other form of submission is a Modification; see further paragraph 2 below for your reference.

B. Section 3.8 of the Invitation of Bid is **amended**, and shall read as follows:

3.8 The bid must be for supply of Goods produced by a single Manufacturer (meeting the requirements aforementioned) for each group of Goods indicated in the Bill of Quantities; however there is no requirement that the Manufacturer for one group of Goods be related to the Manufacturer for the other group. Bidders may participate in the bidding for a single group of Goods, by leaving the section for the other group blank. For purposes of the requirement of a single Manufacturer for each group of Goods, Manufacturers who are Affiliates of each other will be considered as if they were a single Manufacturer, provided that each such Affiliate meets the requirements aforementioned.

C. Section 4(h) of Annex A (*Terms of Tender*) is **amended** such that after the words "single Manufacturer", the parenthetical modifier "(for each group of Goods in the Bill of Quantities)" shall be inserted.

D. The default Lead Time Period is **amended** from 120 days to **90 days**. Consequently:

(i) The words "120 days" are amended to "90 days", in both occurrences in Section 2.4 of the Invitation to Bid and in Section 5 of Annex A (*Terms of Tender*).

(ii) The words "130 days" in Section 2.8 of the Invitation to Bid are amended to "100 days".

Petroleum & Energy Infrastructures Ltd.  
Oil Products Pipeline Ltd.

**Finance Division - Procurement & Engagements Department**

(iii) The Bid Score formula in Section 8.1 of the Invitation to Bid is changed to:

$$S = [70\% * (100 * LQB/B)] + [30\% * (100 + 2 * (90 - LT))]$$

**2. Clarification regarding modifications**

It is emphasized that **no modification of the Tender Documents is allowed**. If a bid is submitted with any modification of the Tender Documents, PEI reserves the right to disqualify such bid, in full or in part, at its discretion, with no further cause required. Alternatively, PEI may accept such modification, or view the bid as if it had been submitted without such modification.

For example, if the bid includes any deviation from the Technical Specifications and/or revised and amended Bill of Quantities, PEI may elect, in its uncontrolled discretion, to disqualify the bid in part or in full, or PEI may elect to ignore such deviations, and require the winning bidder to sign the Contract with the unmodified Technical Specifications and revised Bill of Quantities, without change in price. Similarly, if a bidder submits its bid in the form of a proposal referring to that bidder's own terms of contract, PEI may elect to either disqualify the bid, or ignore such reference and require the winning bidder to be bound by the Terms of the Contract provided as Appendix C to Annex K of the Tender, again without change in price.

These examples are not exhaustive. The full range of options which PEI may implement in the event of a Modification remains as described in the Tender Documents; see *specifically* Section 7 of the Invitation to Bid and Sections 2 and 4(a) of Annex A (*Terms of Tender*).

Notwithstanding the above, PEI has discretion to amend the Contract with the winning bidder, and in general we will be inclined to do so for the sake of being responsive to the compliance needs of our suppliers in their respective jurisdictions, for matters which do not involve substantial cost or risk to PEI. Specific reference is made to Section 9.5 of the Invitation to Bid.

Thank you for your continued interest in the Tender; we look forward to receiving your bids.

Sincerely,

Talmor Sela
