 To: All Tender Participants  
 Dear Sir / Madam,

**Re: Public Tender No. PD23001945 (the “Tender”) – Clarifications #3**

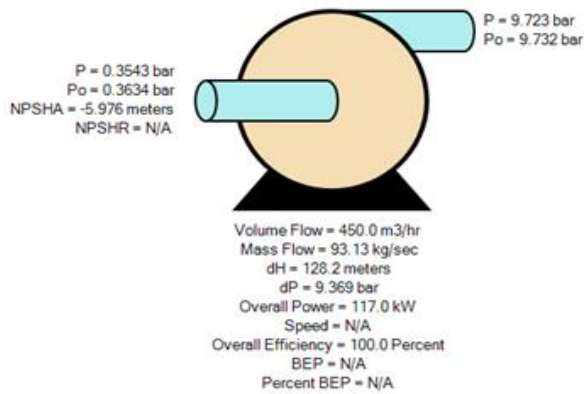

The Company has received certain requests for clarification regarding the Tender, in accordance with Section 5.1 thereof, provided below (the “**Questions**”). Next to each Question is the Company’s answer, which shall be considered by the Company as authoritative

		<u>Question</u>	<u>Answer</u>
1.	Technical	<p>Doubt of the NPSHav. of the Distillate transfer pump which is confirmed to be -6m when sump depth is 1.65 and the NPSH req. of our possible pump selection is something more than 4m.</p> <p>To be able to make proper selections for both pump services, please request for both sump drawings. Based on PEI’s reply we understand that the pumps will be installed in these existing casings, so we need to have existing dimensions</p>	<p>In regards to the NPSHa – it is important to note that the pump should be <b>self-priming</b>. In regards to the relative level, see attached sketch. We wish to have NPSHA of -6m at the suction valve of the pump. If the manufacturer can have a lower NPSHA (e.g. minus 8 meters – it is preferred since we can then have more flow)</p> <p>We have modeled:</p>

### Pump J4 Results

Thank you for your continued interest in the Tender; we look forward to receiving your bids.

Sincerely,

Eran Rheinisch
