Ref.: 309255

To: All Tender Participants
Dear Sir / Madam,

Re: Public Tender No. PD23001945 (the “Tender”) – Clarifications #4

The Company has received certain requests for clarification regarding the Tender, in accordance with Section 5.1 thereof, provided below (the “**Questions**”). Next to each Question is the Company’s answer, which shall be considered by the Company as authoritative

		<u>Question</u>	<u>Answer</u>
1.	Technical	We have quite a doubt of the NPSHav. of the Distillate transfer pump which is confirmed to be -6m when sump depth is 1.65 and the NPSH req. of our possible pump selection is something more than 4m. To be able to make proper selections for both pump services, please request for both sump drawings.	See an update technical spec.
2.	Technical	if the provided NPSHA is -6 meters, as it seems unlikely based on the existing pump GAD.	See an update technical spec.
3.	Technical	Please confirm the firm NPSHA at ground level.	See an update technical spec.
4.	Technical	Could you please verify if these pumps will be operated in parallel?	See an update technical spec.

5.	Technical	plan to install our complete pump set in place of the existing pumps, or if only our bowl assembly will be installed into the existing casing.	See an update technical spec.
6.	Technical	Please provide the motor's area of classification for the distillate water.	See an update technical spec.
7.	Technical	Regarding the Booster transfer Pump - Equipment No P30 attachment A is missing, please share attachment A	See an update technical spec.
8.	Technical	review and check the fitment of the above Pump set GAD based on the space availability at the site.	See an update technical spec.

Thank you for your continued interest in the Tender; we look forward to receiving your bids.

Sincerely,

Eran Rheinisch
